

Resolve to recycle more this year. You can make an enormous impact simply by making small changes in your habits. Any time you have an item to get rid of, ask yourself:

- Can it be reused, recycled or composted?
- If so, can it be reused here at home, donated or put in my curbside recycling bin?
- If not, where's the right place for me to properly dispose of the material?

For more information on recycling, visit RecycleSpot.org.

One more reason to recycle your plastic bags! Plastic bags are not accepted in your curbside recycling bin or at recycling centers. They can be recycled at many grocery and big box stores throughout the metro area. For more information on recycling, visit RecycleSpot.org.

Improve recycling at your school, church or place you volunteer by joining the [Recycle More At Work](#) partnership. Your organization will receive free:

- Monthly recycling tips
- Lunch 'n' learn presentation
- Walk through to help improve recycling
- Educational materials
- Promotion of efforts on social media
- Logo on RecycleSpot.org

Simple rule for better recycling: keep your recyclables dry. Pour out liquids before putting bottles and jars in the bin. For more information on recycling, visit RecycleSpot.org.
